

Isn't it time
you gave your
business a
health check?

RICOH

Ask about a **FREE** Print health check from
Excel and see how much you could benefit

A check-up could help you discover multiple benefits for your business

- Reduce cost of document print and IT infrastructure
- Consolidate supply chain, assets, contracts and invoices
- Increase efficiency by optimising business processes
- Maximise productivity of staff and technology
- Minimise risk and enforce compliance with automated document workflow
- Improve communication with customers, suppliers and staff
- Manage environmental impact by enforcing best practice

Ask about a FREE Print health check from Excel and see how much you could benefit

About Excel

Celebrating 10 years of Excellence, Excel Office Solutions continues its pursuit of bringing the office environment to the customer in the manner that suits you, whether it be product, price or service, the customer experience is at the core of Excel's values.

We do as our name suggests, Excel in providing true office solutions, be it Office supplies to office furniture, through to business printing solutions and IT solutions. Operating in these different sectors allows Excel to provide a complete single source solution, giving savings to you in both time and money, helping keep a lid on any unwanted spending.

Your business doesn't stand still and neither do we. We're not just good, we Excel!
